Activities

How is it all connected?

- Satisfied residents and partners
- Sustainable development in the entire county
- Sweden's best quality, availability and security
- One of Sweden's best workplaces
- Sound and sustainable financial management

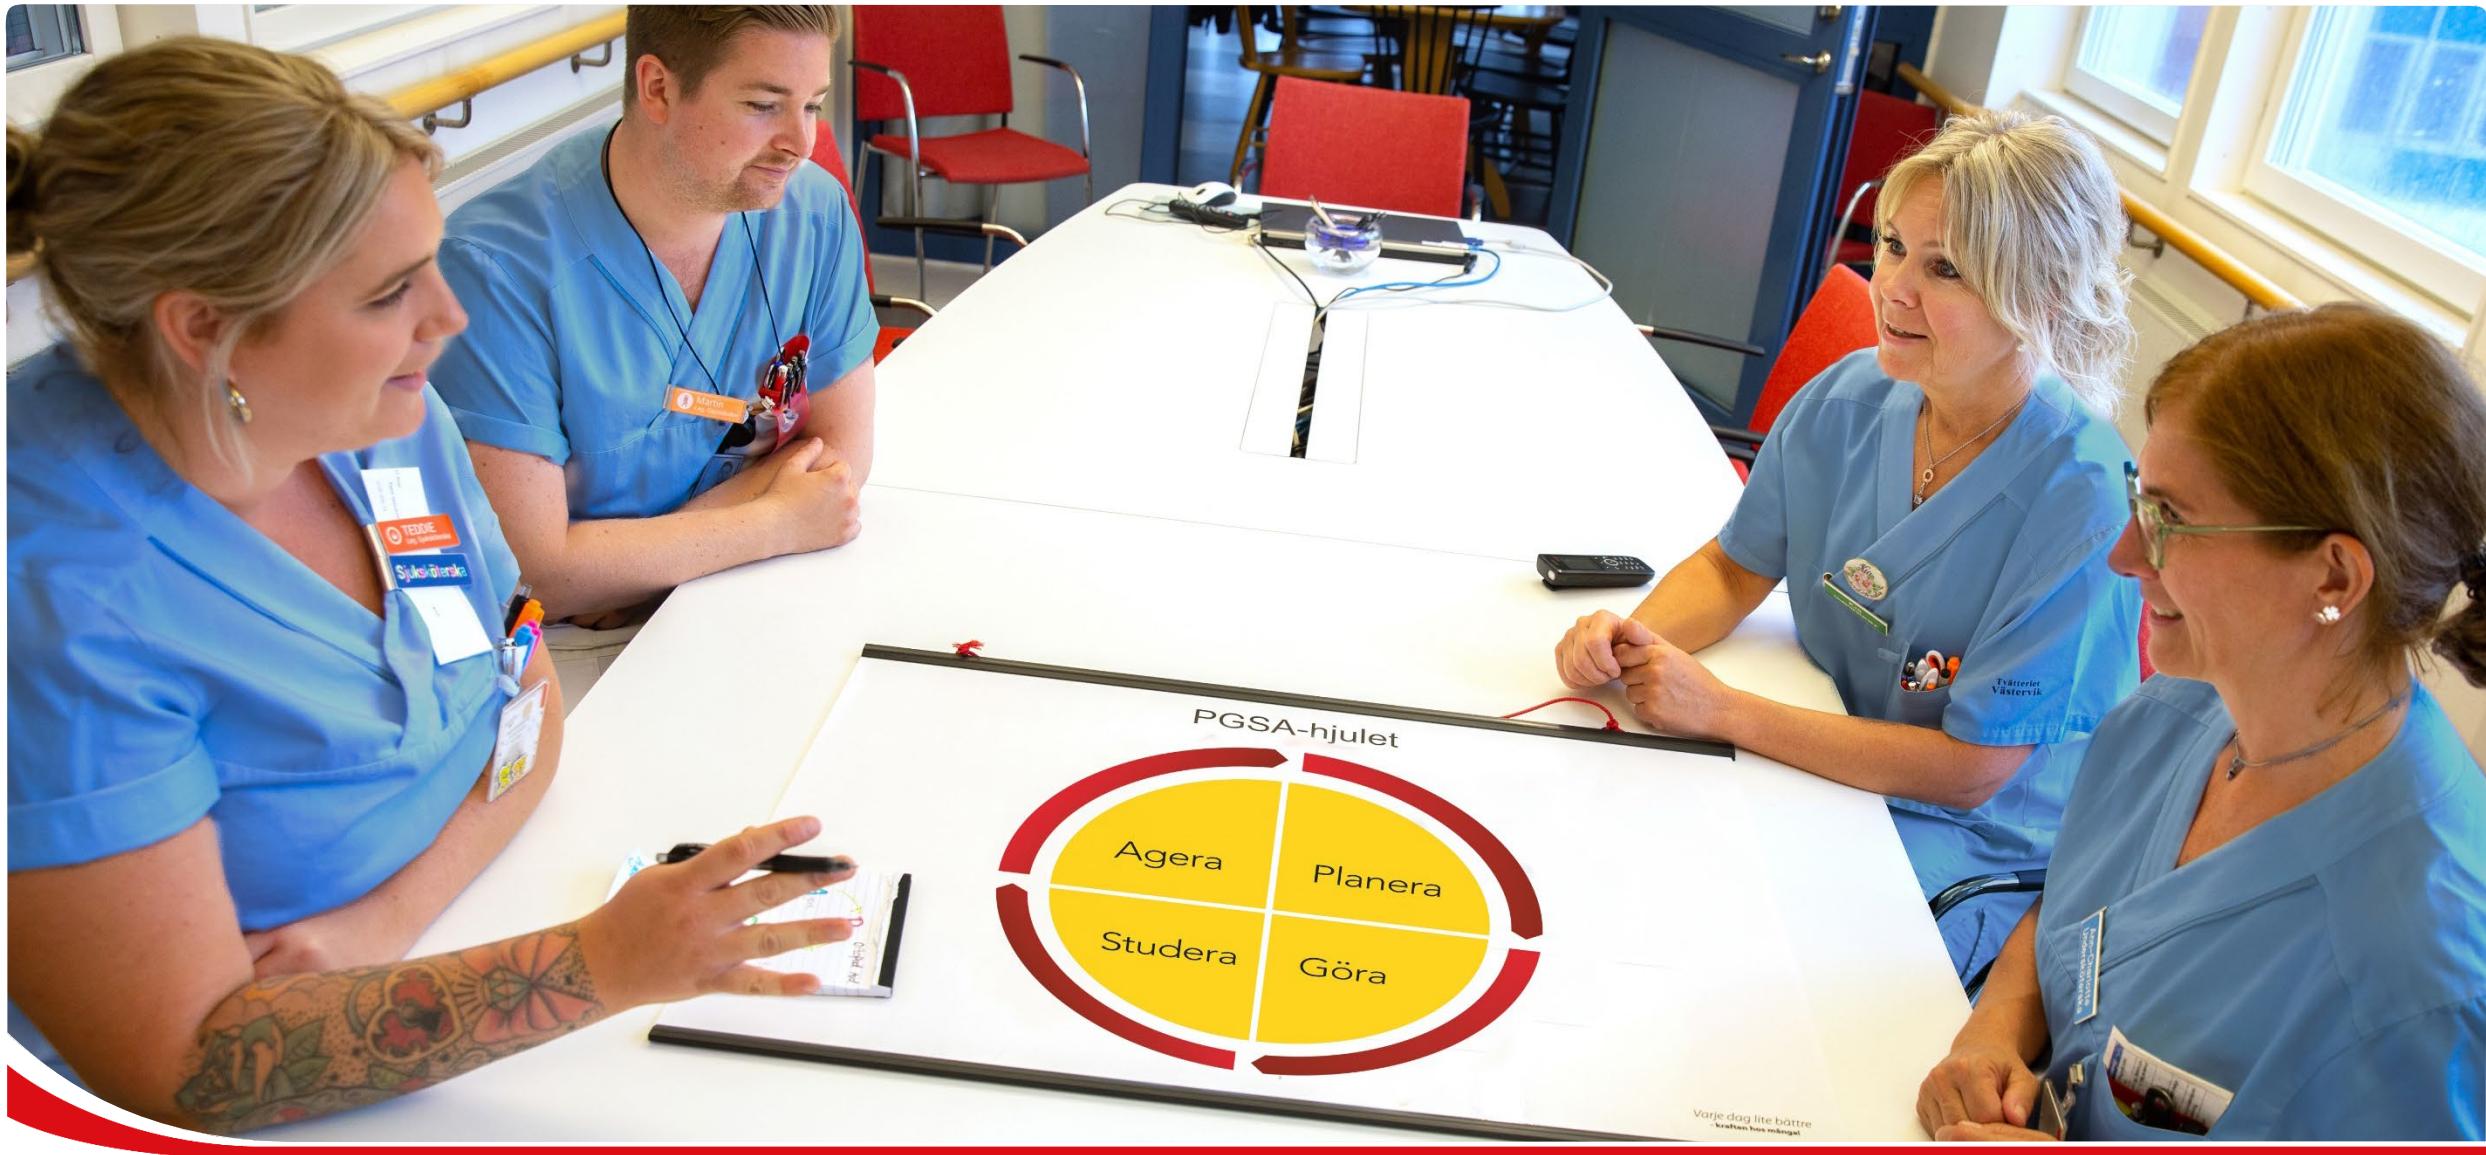

Overall goals in the regional plan | 2026-2028

Together

- We meet people where they are
- We drive development and improvement
- We promote people's empowerment

Focus areas 2026

Overall strategy: Every day a little better – the power of many!

We promote and conduct clinical research for continuous improvement, and to meet future needs through:

- funding for research projects, academic supervision, doctoral and post-doctoral support
- support and supervision in connection with ethical, methodological, and statistical issues
- administrative and practical support in clinical studies
- research lab that provides support and analytical assistance
- guide and process the release of health data for secondary purposes

Research is an important part of achieving our vision

Målbild ger stöd för utveckling

1177 för vårdpersonal ska bli en samlingsplats för ytterligare kunskapsstöd och tjänster och en samarbetsytan i mötet med patienten, enligt en nyantagen målbild med siktet på 2030.

[TILL KUNSKAPSSTÖDEN](#)

[Sök kunskapsstöd eller sidor](#)

1177 for healthcare personnel – launched in June 2024

1177 for healthcare personnel

- Part of the national system for knowledge-driven healthcare. A central point of entry for finding knowledge-driven support documents (“kunskapsstöd”), needed for medical examination, treatment and follow-up in health care.

[1177 for healthcare personnel](#)

- Knowledge-driven support documents are also available on each county council's website or care information system.
